BUSH FIRE COMMUNICATIONS PLAN 2007-2008

The Shire of Dumbleyung in conjunction with FESA representatives and local Fire Control Officers have confirmed a communications plan for all fire fighters attending incidents within the Shire of Dumbleyung effective immediately.

When attending any fire within the Shire of Dumbleyung, all brigades and fire units are required to turn to the **UHF CHANNEL ALLOCATED TO THAT PARTICULAR AREA**. For example, if there was a fire around the northern part of Lake Dumbleyung, all units would use “**Nippering Channel 15**” for communications. This is irrespective of the property owners private UHF channel. This should be left clear for domestic communications.

In the event of the designated site channel becoming congested and overloaded, due to the incident getting bigger, please revert back to your OWN brigade channel (see below) for instructions and information from your Brigade’s FCO, as you will then be required to continue fire fighting in your Brigade group. Each Brigade has been allocated the UHF radio channel as follows:

Lakeview	Channel 10	Dongolocking	Channel 25
Moulyinning	Channel 30	Nippering	Channel 15
Kukerin	Channel 35	Datatine	Channel 20

These instructions are critically important for anyone and everyone attending a fire **within** the Shire of Dumbleyung. Communication between units and brigades has been streamlined in this way for safety and effectiveness on the day. This information should be kept in a prominent and easily accessible location during the coming summer. It is imperative you know which **Shire Bush Fire Brigade area you are located in** and who your **Fire Control Officers are** in case of an emergency or for obtaining permits to burn etc.

It is recognised that the majority of fires attended to during the course of summer will be quickly contained and managed using only the specific local area communications channel. The next part of the communications plan is set in place for those larger incidents that require communication and management of greater numbers of people and fire fighting units or for those occasions where you and your Brigade may be at an incident outside our own Shire boundary.

Please contact your nearest FCO for further information or clarification as you may require. A complete list of FCO’s in the Shire of Dumbleyung appears over the page.

You are also reminded of the **Restricted and Prohibited Burning Periods** as follows:

Restricted Burning Period – permit required from FCO

19 September to 31 October

1 February to 31 March

Prohibited Burning Period – protective burning allowed, permit required from FCO

1 November to 31 January

Burning is also prohibited on Good Friday and Easter Sunday.

There is a total harvest ban on Christmas Day and New Year Day.

Stubble burning, subject to normal permit, allowed on Sundays after 15 March until the end of restricted burning period.

Other information is included in the bush fire brochure previously delivered to households.

Regards

Jamie Dare
Chief Fire Control Officer
