## BUSHFIRE COMMUNICATIONS PLAN

The Shire of Dumbleyung in conjunction with FESA representatives and local Fire Control Officers have confirmed a communications plan for all fire fighters attending incidents within the Shire of Dumbleyung effective immediately.

When attending any fire within the Shire of Dumbleyung, all brigades and fire units are required to turn to the **UHF CHANNEL ALLOCATED**. All units should use “**Channel 30**” for communications. This is irrespective of the property owner’s private UHF channel. This should be left clear for domestic communications.

**These instructions are critically important** for anyone and everyone attending a fire **within** the Shire of Dumbleyung. Communication between units and brigades has been streamlined in this way for safety and effectiveness on the day. This information should be kept in a prominent and easily accessible location during the coming summer. It is imperative you know which **Shire Bush Fire Brigade area you are located in** and who your **Fire Control Officers are** in case of an emergency or for obtaining permits to burn etc.

It is recognised that the majority of fires attended to during the course of summer will be quickly contained and managed using only the specific local area communications channel. The next part of the communications plan is set in place for those larger incidents that require communication and management of greater numbers of people and firefighting units or for those occasions where you and your Brigade may be at an incident outside our own Shire boundary.

<b>Bushfire UHF Channel</b>	<b>Channel 30 (across whole shire)</b>
<b>Bushfire Control Channel</b>	<b>WAERN 181</b>
<b>If repeater fails</b>	<b>Channel 360 which is simplex (no repeater, mobile to mobile)</b>
<b>Shire Harvest Ban Information Line</b>	<b>9487 5410</b>

Please contact your nearest FCO for further information or clarification as you may require. A complete list of FCO’s in the Shire of Dumbleyung appears over the page.

You are also reminded of the **Restricted and Prohibited Burning Periods** as follows:

**Restricted Burning Period** – permit required from FCO

19 September to 31 October

1 February to 31 March

**Prohibited Burning Period** – protective burning allowed; permit required from FCO

1 November to 31 January

Burning is also prohibited on Good Friday and Easter Sunday.

**There is a total harvest ban on Christmas Day and New Year Day.**

**Stubble burning**, subject to normal permit, allowed on Sundays after 15 March until the end of restricted burning period.

Other information is included in the bush fire brochure previously delivered to households.

Regards

**Kim Gooding – Chief Fire Control Officer**
